

Award Scheme Considerations

Venturing Skills Award

A bushwalking expedition must be conducted unless special circumstances exist of an individual nature that prevents the bushwalk proceeding (e.g. medical restrictions).

Leadership

Participation in a nationally developed Leadership Course must be completed BEFORE undertaking the six months in a leadership role.

Expedition

The maximum number of candidates for Expedition at Queen's Scout level shall not exceed half the party. Other party members may undertake the expedition at Venturer Award level. At Venturer Award level, all participants may be eligible for the badge provided all other requirements are achieved. Examiner must hold an SIS-10 Guide Level qualification.

Outdoor or Pursuits

The activity could be significantly different to or an extension of that previously done as part of the Venturer Award. If the same activity is used, it is essential that the Venturer Award level requirement is completed before commencing the Queen's Scout level. Examiner must hold an SIS-10 Guide Level qualification.

Service

Where Service at Queen's Scout level is also undertaken, it should be in the alternative area to Service at the Venturer Award level.

Endeavour Award

To attain the Endeavour Award, the same activity must be completed for 10 hours at Venturer Award level, a further six months at Queen's Scout level, and then an additional 50 hours.

Certificate II in Leadership Support and Certificate II in Business

Venturers who complete their Venturer Award (including the Expedition Badge) should complete the Certificate II Application Form, Assessor Form and Unit Participation Checklist. You must then attach copies of pages 24 and 33 from the Venturer Scout Record Book and a copy of your expedition log and submit to the Region Commissioner (Venturer Scouts) for processing.
